- 256 or 179 Flow Rating
- Easy to install and service
- Available in different colors and finishes
- Products meet the VGB 2008 LAW for spa suction

Made in the USA

BALBOA
water group

Why not spruce up your tub with lighted suction? Balboa is announcing the first UL approved lighted suction. This new revolutionary product will give you more design options when adding VGB suction in the tub.

Tired of having to color match and carry multiple skus for color wall fittings? Reduce your inventory. This new wall fitting will reduce skus by only needing a clear wall fitting - it will even pick up the color of the tub wall and blend in.

With the addition of Balboa's patented light port nut, you can plug in string lights to give a whole new look to the tub.
