LED STRING LIGHTS

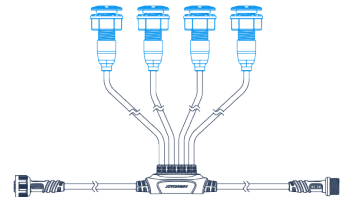

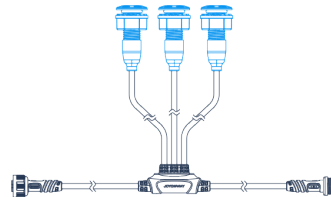

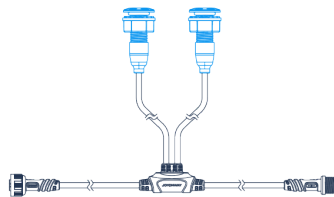

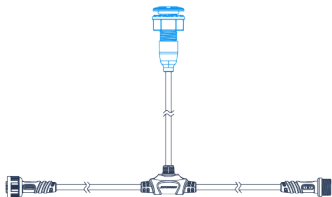

THE ALL **NEW** LED STRING LIGHTS FOR THE HOT TUB

THE PERFECT ADDITION TO YOUR TUB

Engineered to work in any hot tub, Balboa's all NEW string lights are created with a minimalist and modern design, producing a beautiful, soothing illumination while soaking in the hot tub. Easy to setup and easy to use with low power consumption.

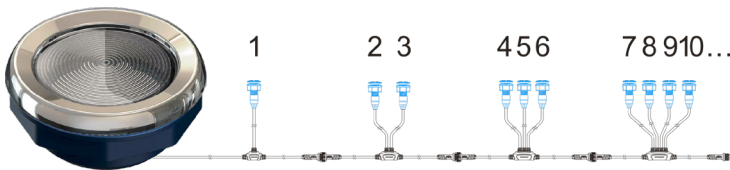

**4 DIFFERENT
COMBINATIONS AVAILABLE**

12V Combination:
+12V RGB, Max 0.25W
+12V RGB each LED bead is 0.25W Max

5V Combination:
+5V RGB, Max 0.10W
+5V RGB each LED bead is 0.10W Max

The 12V spa light can be connected in series with the LED string lights. Supports up to 120 LED points of light, maximum.

The joint part of the single LED strings are wrapped by injection molding. Waterproof and durable.

Stud to nut connection. Durable and waterproof, enhanced by the O-ring pressed inside.
